

the symptom checker

## ISABEL SYMPTOM CHECKER

### Driving Engagement with Empowered Patients

The **Isabel Symptom Checker** is a unique and powerful tool designed to empower and engage healthcare consumers in your network. The patient is the most important piece in the healthcare puzzle and by providing them with a trusted source to become informed about their symptoms you can engage them on a whole new level.

### Provide Access to the Best Symptom Checker

For the first time, institutions can provide patients with valuable access to an easy to use, yet highly sophisticated, validated medical diagnosis system that is much more powerful than previously available symptom checkers.

### Isabel Symptom Checker Helps Patients

- ✓ Understand symptoms
- ✓ Access the robust database of 6,000 diseases
- ✓ Use the same system doctors have relied on for 10+ years

### Why choose Isabel Symptom Checker for your system?

#### Enhance Patient Engagement

- Institutions choose Isabel Symptom Checker to enhance patient engagement by providing the most advanced symptom checker to their customers and patients.
- Guide your patients through the internet by providing a trusted and reliable source and enhance the consultations with your providers

#### Increase Traffic. Improve Loyalty

- Increase website traffic and stickiness by providing the latest and most powerful symptom checker currently available.
- Isabel Symptom Checker also can be mapped directly to your physician or office finder tools to enhance in-network participation.

#### Easy to Integrate and Brand as Yours

- Isabel provides complete API integration capabilities which allows enhanced branding opportunities

## Provide Access to the Best Technology Available

Isabel Symptom Checker is easy to use for consumers and is based on the same system that doctors and nurses around the world rely on to help with diagnosis. Using the latest natural language search technologies, the Isabel system can take a pattern of multiple symptoms entered in everyday language and instantly compute the most likely diagnoses from our vast database. Isabel is acknowledged as the clear leader in medical diagnosis tools.

## Medical Knowledge at Fingertips

The Isabel Symptom Checker puts the world's medical knowledge at the patients' fingertips and enables them to make sense of symptoms.

"We chose Isabel because it is the best diagnosis support tool on the market."

*Gary Mirkin, Allied Pediatrics  
Chief Executive Officer*

"I've used Isabel for quite some time now, and it's extremely valuable."

*Dr. Joseph Schneider,  
Baylor Health*

The screenshot shows the Isabel Symptom Checker interface. On the left, the 'enter your symptoms' section includes fields for age (young adult), gender (male), region (North America), and a list of symptoms (fever, achy joints). A 'search' button is at the bottom. The middle section, 'possible diagnoses', shows a table of results with columns for diagnosis and associated system. The 'Parvoviral Infections' row is highlighted with an orange arrow. To the right, a 'Notice Board' lists 'How to Guide', 'General Advice', and 'Tip of the week'. Below it, an 'Action:' section contains icons for 'E-Mail', 'Print', and 'Save', with an orange arrow pointing to the 'Save' icon. A 'next step' arrow is at the bottom of the diagnosis list.

Diagnosis	System
Lyme Disease	Infec
Poststreptococcal Reactive Arthritis	Rheum
Endocarditis	Heart
Brucellosis	Infec
Juvenile Rheumatoid Arthritis	Rheum
Parvoviral Infections (common)	Infec
Crohn's Disease (common)	Gastro
